

SUIT-UP

Overview:

This national event not only involves your decision making skills, but also incorporates negotiation, trickery and presence of mind to develop a company worth reckoning. There are multiple aspects at play here, including the temperament of the other participants, valuation of assets and marketing above market standards, all in the quest to birth an industry redefining business model to get ahead of the competition. Teams of up to four battle it out in a showcase of talent, skill and above all, their nerves to emerge as one who can truly lead effectively and bring to the forefront their capabilities that are mercilessly tested in the real-world corporate environment.

In Suit-Up we also include a real-world mimicking market which is represented by the algorithm used to calculate the company's holdings at the end of every step that gets them closer to the end, which adds an extra dimension of realism in the game.

RULES:

1. The game is interactive and allows the player(s) to make almost any choice. However some of the aspects of the game's algorithm are pre-decided and the organizers have the final say in any confusion that may arise.
2. There is no eligibility criterion.
3. Teams of up to 4 can participate.

Winner: Teams with the maximum assets as judged by the panel will win the event.

Prize: Prizes worth Rs. 15,000/-
