ATMOS - CAPTURE THE FLAG

Event description:
Capture the Flag or CTF is a one of a kind cyber security challenge where you get to find vulnerabilities in various kinds of software and find a 'flag' to progress onto further levels. Whether you are a tech newbie or you consider yourself good, this challenge can bring your skills to test and you'll surely be learning something new with it. You can participate individually or in teams of 2.
There will be a single onsite round with winners decided at the end of 2 hours according to the leaderboard. The competition will have problems ranging from categories such as web exploits, steganography, cryptography etc. with varying difficulty in each.
